

# SHEETCUT MW

WATERJET CUTTING MACHINE

## POWERFULL

Able to cut carbon steel sheets up to 100 mm thick.

## CUSTOMIZED

The sizes are customizable according to the requirement of the customer.

## SAFE

The anti-collision system stops the machine in case of any contingency.

## COST-EFFECTIVE

It nests multiple pieces automatically for the maximum profit of material(nesting).

**MOTOCONO®**

## TECHNICAL FEATURES:

Profitable cutting area: 3000 x 1500 mm	Cutting technology: Water + abrasive (sand)
Maximum cutting thickness: +100 mm	Motion: 4 servomotors AC
Power supply: 400V, 3-phase to 50/60 Hz	Material: All types of metals, ceramics, glass, plastics among others
Sizes: 3800 x 1900 x 2000 mm	Movements accuracy: 0.1 mm/m
Weight (approx.): 2500 Kg	Control panel: CNC with 15" touch screen
	Control software: CutExpert by Eurosoft

## CONTACT:

Calle Fenolleda 8, Pol. Ind. Nord  
(+34) 937 354 597  
Terrassa 08226 – Barcelona, España

Our machines are produce according the European Union safety requirements.
